FACT   Austin traffic congestion now ranks as the 4th worst in AMERICA.
If we don’t **do something**, the laid-back town we love will become a stressed-out city we don’t.

Prop. 1 is about **protecting Austin’s character** by investing in solutions to our traffic crisis — both road improvements and the first phase of a citywide rail transit system.

Real traffic solutions aren’t cheap — but doing **nothing** will cost us **everything**.

**MAKE SURE YOU KNOW WHOSE SIDE YOU ARE ON!**

The **Austin Tea Party** and a millionaire road maintenance contractor who opposes all rail transit are behind the campaign against Prop. 1. Just saying “no” does **nothing** to protect our quality of life!
